THE FEAR OF HUMBUG Prevents Many People from Trying a

Stomach troubles are so common and

Stomach troubles are so common and in most cases so obsinate to cure that people are upt to look, with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humbugged, especially in medicines. This fear of being humbugged can be carried too far, so far, in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the and money in faithfully testing the claims made of a preparation so reli-able and universally used as Stuart's Dyspepsia Tablets.

Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrastis and nux. They are not catharic, neither do they act powerfully on any organ but they cure inor catharic, hericar do they act pow-erfully on any organ, but they cure in-digestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only se-cret of their success.

Cathartic pills never have and never can cure indigestion and stomach trou-bles because they act entirely on the

bles because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half digested is poison as it creates gas, seldity, beadaches, relatitation of the acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.
